Mulvaney, Faculty Advisor; A. Arnouldsen, Station Manager WTSC. Row 2: E. Neary, Chief Engineer WMTC; B. Danco, Program Director WMTC.

I.C.R.N.—The Inter College Radio Network is the largest joint activity of Clarkson College and the State University College. Close to two hundred students from both schools combine their efforts to broadcast more than two hundred hours per week.

College Power radio, WMTC, provides the most popular rock and roll music from the weekly Deer's List. Make-up music shows on to infinity. WMTC is on the air everywhere.

The College Bound, WTSC AM and FM, features folk, Broadway, jazz, underground rock, as well as a core of the most popular easy listening music. In addition, Clarkson hockey, educational features, and convocation speakers are broadcast. The station's newly expanded studios will enable WTSC to greatly increase its services to the colleges and community of Potsdam.
